

# HVAC GUIDE FOR MULTI-SITE FACILITIES

Property managers in New York City managing multiple locations need a single source they can turn to for all their commercial HVAC service needs. Handling the indoor comfort needs for multi-site facilities can be challenging without the right commercial heating and cooling specialist at your side. At AFGO Mechanical, our team offers the turnkey HVAC solutions that multi-site facilities need to remain comfortable all year long.

## One Company for All Multi-Site Commercial HVAC Needs

Maintaining indoor comfort across your NYC facilities doesn't mean you need to contract multiple HVAC technicians for the job. At AFGO, our team is capable of servicing your heating and cooling equipment across all your locations. Since 1928, our team has offered a broad range of HVAC services to help simplify your multi-site facility heating and cooling needs, including:

- 24-hour heating and air conditioning repair service
- Preventative HVAC maintenance
- Commercial HVAC system sanitizing service
- HVAC installation, replacement, and retrofitting
- Ventilation strategies for COVID-19

## Multi-Site Facilities Management Software Expertise

With nearly 100 years of commercial heating and air conditioning expertise, our team is uniquely capable of working with facility owners' HVAC management systems. We are deeply familiar with many common portals and management systems used by NYC's facility managers, including the following:

- ServiceChannel
- Verisae
- Corrigo
- fmPilot 2

Our familiarity with these systems allows us to complete your multi-site facility HVAC service needs more quickly and efficiently so you can get back to managing facility operations.

## AFGO Is a Proud Member of Connex

### The Leading Multi-Site Facilities Management Association

AFGO Mechanical is proud to be a member of Connex, the leading multi-site facilities management association empowering facilities management professionals with best practices, benchmarking, education, discussion forums, and trusted partnerships. Our Connex membership ensures that our HVAC technicians remain up-to-date on the latest in multi-site facility management so that your buildings are outfitted with the most advanced, energy-efficient solutions available.

### Protect Your Multi-Site Facility With Preventative HVAC Maintenance:

The only way to keep your HVAC systems operating smoothly across your multi-site facilities is by scheduling preventative maintenance. AFGO offers custom-tailored preventative maintenance agreements personalized to the unique needs of your multi-site facilities' heating and cooling equipment. With our sophisticated reporting systems, we can perform ongoing analysis to prevent unexpected breakdowns, premature replacements, and expensive emergency HVAC repair services. Protect your multi-site facilities' HVAC systems by inquiring about our custom-tailored preventative maintenance plans today.
